Nantucket Planning & Economic
Development Commission
2 Fairgrounds Rd.
Nantucket, MA 02554

March 25, 2008

Dear Mr. Vorce,

I am writing on behalf of Nantucket Cottage Hospital to inform the Planning Board through you that the Hospital Administration and Board of Trustees fully and enthusiastically support Warrant Article 40. I along with two members of my staff were in attendance at the February 21, 2008 Planning Board meeting and were pleased to see the Article recommended by the Board.

The recommended change from R-1 and R-10 respectively to C-N more accurately reflects the current usage in those areas. Additionally, the impact of these changes would provide the Hospital with the latitude to make future improvements to the Hospital-owned land necessary to continue to provide the optimum health care services for the island. As you are aware, any future projects would be in keeping with our mission, and involve either office space or the provision of medical services, such as physician offices.

We appreciate the efforts of the Planning Board Staff and Board Members to clarify the Zoning Bylaws and address the corrections needed in the current structure. Please let me know if I can assist in any way.

Sincerely,

A handwritten signature in cursive script that reads "Sylvia Getman".

Sylvia Getman
